Taylor Quinn

taylor.quinn@example.com | (773) 555-0182 | linkedin.com/in/taylor-quinn | github.com/taylorquinn-dev

EDUCATION

State University of Lakeshore
B.S. in Information Systems, Graduated May 2024

EXPERIENCE

Software Engineer Intern
Brightline Logistics, Chicago, IL
Jun 2024 - Feb 2025
- Developed a React dashboard for warehouse throughput, reducing report preparation time by 40%.
- Automated release checklists for the logistics team, saving several hours of manual coordination each week.
- Refactored shared UI components in TypeScript, cutting duplicate code across three delivery teams.

PROJECTS

Study Buddy Chatbot | Python, NLP
github.com/taylorquinn-dev/study-buddy-chatbot
- Developed a Python chatbot that answered student questions in natural language.
- Tuned intent classification rules to raise answer accuracy on held-out conversations.

Campus Connect | React, TypeScript, Node.js
github.com/taylorquinn-dev/campus-connect
- Built a React and TypeScript web app matching students to study groups by schedule.
- Created a Python recommendation script scoring compatibility with pandas DataFrames.

SKILLS

Languages: Python, JavaScript, TypeScript
Frameworks: React, Node.js
Libraries: pandas, NumPy
Tools: Git, Docker, Jest, Figma

CERTIFICATIONS

AWS Certified Cloud Practitioner, Issued 2024
